

## Professional Consulting Services

Nlets, the premier provider of the International Justice and Public Safety Network, now extends consulting services to its core constituency and strategic partners. Nlets provides members direct access to a diverse set of technical resources. From XML/NIEM to system & network programming and assistance we can provide short-term engagement technical assistance through our "sole source" relationship.

For more than 40 years Nlets has maintained the computer network connecting all criminal justice and public safety agencies in the United States and Canada. Each month our team of skilled professionals facilitates the delivery of more than 80 million messages to over 35,000 agencies with more than 600,000 devices and employing more than one million users.

Ease of acquisition and flexibility in service offerings is our goal. Nlets' members and partners simply must have a need then make a request. The experienced Nlets staff will customize a plan specifically for your organization.

Whether it is a single faceted programming issue or a multi-tiered endeavor the Nlets team can help. From cutting-edge technical expertise to proficient project management with resource allocation tracking, cost control, and budget management, Nlets has the resources you need.

Nlets invoices the member entity through its regular billing process thus enabling the swift implementation of technical assistance. Owned and governed by state law-enforcement agencies, Nlets is a 501(c)(3) non-profit organization. All profits realized from our services benefit the public safety community as a whole.
